Through the B&R Advantage, our firm's unique approach to each client engagement, our Government Services Group oversees traditional auditing, accounting and financial consulting responsibilities while also working closely with each client to advise government leaders on a variety of fiscal management issues and decisions.

Prudent planning, careful management and comprehensive accountability are the hallmarks of successful public management. B&R addresses all three of these priorities through close collaboration and ongoing teamwork, supported by frequent communication with the governing body and management. As a result, our clients are able to manage resources, safeguard assets and meet or exceed their financial, operational, and regulatory compliance objectives. Furthermore, these achievements provide public entities with the right information necessary to increase public engagement and enhance stakeholders' understanding of their fiscal objectives and achievements.
